

Harbor Tech Advises Vets To Enroll Now

Veterans who have not begun their educational training under the GI bill must enroll for the spring semester if they wish to start their educational training program during a regular school year, according to Dr. Ralph K. Timothy, veterans' advisor at Harbor Junior College.

Harbor Tech's spring semester will begin on January 31, with registration scheduled for January 29 and 30.

Veterans intending to take advantage of the educational bill are urged by Dr. Timothy to apply immediately to a local Veterans Administration office for their letters of entitlement.

Veterans may obtain additional information as to their educational benefits under the GI bill, and as to the curricular offerings at Harbor Tech by calling Terminal 4-8551, or by an interview with him at the local college, located at 1111 Figueroa Street, Wilmington. Dr. Timothy stated.
